Summary

My expertise lies in software development, where I leverage my proficiency in JavaScript, TypeScript, React.js, Node.js, and React-Native to create seamless and responsive web and mobile applications.

Programming Languages and Technologies

Languages: JavaScript, TypeScript.

Technologies: HTML5/CSS3 SASS/SCSS, Bootstrap, MUI, Tailwind, Headless UI, Shadcn/UI, React.js, Next.js, Nextauth, Redux / Redux-toolkit, React-Query, RestAPI, Node.js, Express.js, MongoDB, Mongoose ODM, React-Native, Expo, Nativewind, Git/Github, NPM, Yarn, Postman, Hygraph CMS.

Experience

Dicken Town - (Full-stack web developer, Full-Time)   **Freelance** Apr 2024 - Present

An online store designed to sell goods via the Internet in the form of electronic commerce.

- Implemented advanced features such as server-side rendering (SSR) and static site generation (SSG) with Next.js to improve performance, SEO, and time-to-interactivity, resulting in a 45% reduction in page load times and a 30% increase in search engine visibility.
- Leveraged REST API to facilitate seamless data exchange between the client and server, improving application responsiveness and reducing load times by 30%.
- Improved code quality and stability by providing excellent TypeScript support in application development and pre-empting application errors.
- Leveraged React Query for server-state synchronization and efficient data fetching, optimizing network requests and reducing latency by 40% through automatic caching and background data prefetching.

Innobek - (Frontend developer, Full-Time)   **Tashkent, Uzbekistan** Feb 2024 - Mar 2023

Innobek, an innovative IT company, has completed over 50 projects for state organizations and businesses, working with various enterprises.

- We designed and developed responsive web applications using modern JavaScript frameworks such as React.js and Next.js, ensuring cross-browser compatibility and optimal performance.
- Collaborated closely with backend developers to design and integrate RESTful API endpoints, facilitating efficient data retrieval and manipulation while adhering to RESTful principles and best practices.
- The company has delivered software with many functionalities to its customers and their productivity has increased by almost half.
- Developed customer-friendly hotel reservation services and customer flow management software such as CRM for hotel managers, which increased customer visits by 28% and hotel productivity by 46.7%.

Education

TypeScript, Next.js, and React-Native courses at "Sammi.ac"   Aug 2023 - Jan 2024
Full-stack web development course at "Najot ta'lim"   May 2021 - Jan 2022

Language skills

- Uzbek: Native
- English: B1
